

# Right n' Ready - Training for the Non-Pilot Companion

What if you, the pilot, were to become incapacitated during a flight? Would your right seat companion know how to keep the plane upright, know where the speedometer and gas pedal are, or how to use the all-important autopilot? These and many more topics are covered in this course.

**Directions:** From US 36 and US 287 (Wadsworth) go south to Interlocken Loop. Turn west to Airport Way and proceed south. Go past the stop sign and watch for the Independence Aviation building on the right.

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
